Please Save My Earth, Vol. 1 Saki Hiwatari

Please Save My Earth is part science fiction, part fantasy, and completely engrossing; from a master of the shojo style. Alice's dreams of being a lovely woman living on the moon provide an escape from her job babysitting the holy terror Rin. When he goes one step too far, she slaps him, causing him to fall off a balcony and into a coma. When he awakens, he seems changed — and strangely connected to Alice. Meanwhile, at school, Alice meets a pair of boys with an oddly close relationship. She soon learns that they, too, have dreams of living on the moon.
