In a state where "majority rules" does not mean a state of democracy, a girl breaks all of the major rules, most significantly her own. In her mind's eye of sex, drugs and irrational reasoning, she leads herself to sacrifice her safety in exchange for experiences which lead her to appreciate life more than she could imagine. You are invited to travel with her as she copes through life's hellish twists and turns, and as she transforms these trials and tribulations into positive lessons. Her nature matures from vulnerability to curiosity to questions to vast genres of answers, only to return to more questions. The people that she forces herself to meet, and the people that force themselves onto her, fluctuate her hormones. And through this book she hopes to do the same for You.
