This book combines the three post apocalyptic adventure books of the "Solitary Man Series". Look around, millions of preppers are working feverishly every day to get prepared for what they fear is a disaster about to happen in America. The motivation for preparing differs for each person. Donald is getting his farmstead prepared in case a predicted solar storm takes out the electrical grid. Some folks might call what Donald is trying to create as a Bug Out location. Other People consider his little rural house as an effort to become more self-sufficient like a homesteader. Donald can agree with both lines of thinking, but the way he sees it, it is going to be his own safe haven or refuge from the N.A.S.A. predicted solar storm. The Author takes his apocalyptic adventure story and weaves in prepper preparedness tricks and introduces some new survival supplies that possibly most folks haven't thought about yet and integrates them into his storyline. This book focuses on building a bug out location from scratch, with permaculture and disaster psychology applied to an unfolding catastrophe.
