The Browser Hacker's Handbook Wade Alcorn, Christian Frichot, Michele Orru
Hackers exploit browser vulnerabilities to attack deep within networks

The Browser Hacker's Handbook gives a practical understanding of hacking the everyday web browser and using it as a beachhead to launch further attacks deep into corporate networks. Written by a team of highly experienced computer security experts, the handbook provides hands-on tutorials exploring a range of current attack methods.

The web browser has become the most popular and widely used computer "program" in the world. As the gateway to the Internet, it is part of the storefront to any business that operates online, but it is also one of the most vulnerable entry points of any system. With attacks on the rise, companies are increasingly employing browser-hardening techniques to protect the unique vulnerabilities inherent in all currently used browsers. *The Browser Hacker's Handbook* thoroughly covers complex security issues and explores relevant topics such as:

- Bypassing the Same Origin Policy
- ARP spoofing, social engineering, and phishing to access browsers
- DNS tunneling, attacking web applications, and proxying—all from the browser
- Exploiting the browser and its ecosystem (plugins and extensions)
- Cross-origin attacks, including Inter-protocol Communication and Exploitation

The Browser Hacker's Handbook is written with a professional security engagement in mind. Leveraging browsers as pivot points into a target's network should form an integral component into any social engineering or red-team security assessment. This handbook provides a complete methodology to understand and structure your next browser penetration test.

From reader reviews:

Rosa Nguyen:

As people who live in often the modest era should be change about what going on or data even knowledge to make these individuals keep up with the era which is always change and move ahead. Some of you maybe may update themselves by reading books. It is a good choice for yourself but the problems coming to anyone is you don't know what kind you should start with. This The Browser Hacker's Handbook is our recommendation to cause you to keep up with the world. Why, since this book serves what you want and want in this era.

Donald White:

Nowadays reading books be a little more than want or need but also turn into a life style. This reading practice give you lot of advantages. Advantages you got of course the knowledge the rest of the information inside the book in which improve your knowledge and information. The data you get based on what kind of book you read, if you want send more knowledge just go with training books but if you want experience happy read one with theme for entertaining including comic or novel. The actual The Browser Hacker's Handbook is kind of publication which is giving the reader unpredictable experience.

Michelle Bachman:

The Browser Hacker's Handbook can be one of your nice books that are good idea. We all recommend that straight away because this book has good vocabulary that may increase your knowledge in terminology, easy to understand, bit entertaining but still delivering the information. The author giving his/her effort to set every word into pleasure arrangement in writing The Browser Hacker's Handbook however doesn't forget the main stage, giving the reader the hottest as well as based confirm resource data that maybe you can be one among it. This great information can drawn you into brand-new stage of crucial pondering.

Beatrice Kennemer:

This The Browser Hacker's Handbook is new way for you who has attention to look for some information mainly because it relief your hunger associated with. Getting deeper you upon it getting knowledge more you know or you who still having small amount of digest in reading this The Browser Hacker's Handbook can be the light food for yourself because the information inside that book is easy to get through anyone. These books produce itself in the form that is reachable by anyone, sure I mean in the e-book form. People who think that in book form make them feel drowsy even dizzy this book is the answer. So there is not any in reading a e-book especially this one. You can find actually looking for. It should be here for an individual. So , don't miss it! Just read this e-book kind for your better life and also knowledge.
