The Awakening by Kaitlyn O'Connor -

The first book in the best-selling cyberevolution series.

They were the latest weaponry—cyborg soldiers—a melding of robotics and biological materials conceived to integrate them with their human counterparts--except they were scary-big and so powerful they were capable of destruction no human was. And then they awoke.

Tears of the Dragon - Kaitlyn O'Connor-

Trapped in a world where females come 'in season' and male dragons battle to claim their mates, Khalia Peterson realizes very quickly that this can be a very dangerous world for a human, or at least half-human, female who knows no season.

Feline Heat - Madelaine Montague -

As afraid as Kate was of the beautiful but deadly felines her boss expected her to 'mate' with on stage, she didn't want anything to happen to them. Letting them go seemed like a good idea at the time.

Night Raven - Angelique Anjou -

The pheromones made it possible to track the vixen to lair, but it also wreaked havoc with their sex drives-which no one had counted on. As squad leader, it was Raven's job to keep a cool head, whatever the circumstances, but the ease with which Nika decimated the control of his squad members was unnerving enough to make him wary anyway.

The woman was dangerous!

Labyrinth of the Beast - Desiree Acuna -

Lilith is offered to the demons that dwell within the Labyrinth of the Beasts. It is the Hawkin, Gaelen, guardian of the gateway, who comes to collect her. His task is to initiate her into the pleasures of the flesh and train her to entertain the insatiable carnal appetite of the demons

Alien Mating - Kaitlyn O'Connor -

When Mia is seduced into sneaking away from the party for sex, she has an unexpected, though mutually

gratifying, encounter with a Prince from far, far away.

Prince Ragnar was expected to take the Princess Valeria as his mate. Instead, he takes a drastic, unplanned detour.

Pandora's Curse - Goldie McBride -

There seemed no hope to Pandora until the day the handsome knight, Drake, rode through her village on the way to a tournament. One night of finally fulfilling her aching needs, though, only seemed to make things worse, for Drake wasn't nearly as resigned to his fate as she was.

Punished - Kimberly Zant -

Marlee has a secret she dare not divulge, and it isn't something that will withstand the scrutiny of a criminal investigation. When the computer system at the law firm where she works is hacked and critical information filched, she discovers she could be looking at jail time and begs them for the chance to repay them in whatever manner they see fit. The sentence is six months hard time-with six young lawyers.

Highland Wolves I: Dances With Wolves - Mandy Monroe -

Scotland. Jada soon discovered that it was full of natural beauty, castles, and . . . werewolves?

Forgotten Realms I: Primal Instincts - Raven Willow-Wood -

Goldie Lockwood is on the last leg of her trip when she crashes on Sirius A. Her situation was dire before she wrecked her ship! Upset but determined, she sets off to find what she needs to repair her ship and get her cargo to market. She hadn't counted on crashing on a foreign planet and she definitely hadn't counted on making contact with three bear shifters.
