Women who feel they need a Rosetta stone to interpret their husbands' behavior no longer have to be frustrated. Psychologist and media personality Leman channels his years of professional counseling experience into easy-to-follow, common sense advice for wives. While never placing blame on women for their husbands' poor behavior, the author does believe that wives can encourage their husbands to be better partners by altering some of their expectations. One expectation that should never be altered, however, is that of mutual respect. Leman does not mince words about what to do with men who continually disrespect their wives-dump the chump is his advice. Specific questions from wives are peppered throughout, followed by the author's sage feedback. Some may feel Leman puts too shiny an interpretation on the aspects of husbands' behavior that infuriate women the most by suggesting that men really do want to please their wives but are often clueless as to how to do this. A wife can only know for sure if she gives the author's five-day plan a try. (Oct.) Copyright © Reed Business Information, a division of Reed Elsevier Inc. All rights reserved.
