# MATLAB for Neuroscientists: An Introduction to Scientific Computing in MATLAB

*Pascal Wallisch, Michael E. Lusignan, Marc D. Benayoun, Tanya I. Baker, Adam Seth Dickey, Nicholas G. Hatsopoulos*

**MATLAB for Neuroscientists: An Introduction to Scientific Computing in MATLAB** Pascal Wallisch, Michael E. Lusignan, Marc D. Benayoun, Tanya I. Baker, Adam Seth Dickey, Nicholas G. Hatsopoulos

*MATLAB for Neuroscientists* serves as the only complete study manual and teaching resource for MATLAB, the globally accepted standard for scientific computing, in the neurosciences and psychology. This unique introduction can be used to learn the entire empirical and experimental process (including stimulus generation, experimental control, data collection, data analysis, modeling, and more), and the 2nd Edition continues to ensure that a wide variety of computational problems can be addressed in a single programming environment.

This updated edition features additional material on the creation of visual stimuli, advanced psychophysics, analysis of LFP data, choice probabilities, synchrony, and advanced spectral analysis. Users at a variety of levels—advanced undergraduates, beginning graduate students, and researchers looking to modernize their skills—will learn to design and implement their own analytical tools, and gain the fluency required to meet the computational needs of neuroscience practitioners.

- The first complete volume on MATLAB focusing on neuroscience and psychology applications
- Problem-based approach with many examples from neuroscience and cognitive psychology using real data
- Illustrated in full color throughout
- Careful tutorial approach, by authors who are award-winning educators with strong teaching experience

**From reader reviews:**

**Mary Case:**

Do you have favorite book? If you have, what is your favorite's book? Publication is very important thing for us to learn everything in the world. Each guide has different aim or maybe goal; it means that book has different type. Some people really feel enjoy to spend their time and energy to read a book. These are reading whatever they take because their hobby is usually reading a book. What about the person who don't like studying a book? Sometime, person feel need book after they found difficult problem as well as exercise. Well, probably you'll have this MATLAB for Neuroscientists: An Introduction to Scientific Computing in MATLAB.

**Willie Burroughs:**

The book MATLAB for Neuroscientists: An Introduction to Scientific Computing in MATLAB can give more knowledge and information about everything you want. So why must we leave a very important thing like a book MATLAB for Neuroscientists: An Introduction to Scientific Computing in MATLAB? Several of you have a different opinion about book. But one aim in which book can give many info for us. It is absolutely proper. Right now, try to closer along with your book. Knowledge or data that you take for that, you could give for each other; you can share all of these. Book MATLAB for Neuroscientists: An Introduction to Scientific Computing in MATLAB has simple shape but you know: it has great and massive function for you. You can search the enormous world by wide open and read a publication. So it is very wonderful.

**George Lehman:**

Often the book MATLAB for Neuroscientists: An Introduction to Scientific Computing in MATLAB will bring you to the new experience of reading any book. The author style to spell out the idea is very unique. Should you try to find new book you just read, this book very ideal to you. The book MATLAB for Neuroscientists: An Introduction to Scientific Computing in MATLAB is much recommended to you to study. You can also get the e-book from the official web site, so you can more readily to read the book.

**Frank Hudson:**

A lot of people always spent their particular free time to vacation or even go to the outside with them family members or their friend. Are you aware? Many a lot of people spent these people free time just watching TV, as well as playing video games all day long. If you need to try to find a new activity here is look different you can read any book. It is really fun for yourself. If you enjoy the book which you read you can spent the whole day to reading a book. The book MATLAB for Neuroscientists: An Introduction to Scientific Computing in MATLAB it doesn't matter what good to read. There are a lot of those who recommended this book. We were holding enjoying reading this book. In case you did not have enough space to bring this book

you can buy typically the e-book. You can more simply to read this book from the smart phone. The price is not too costly but this book features high quality.
