PLANESPOTTING IN THE 80s is a photographic and textual exploration of airliner activity in the 1980s, with particular emphasis on Philadelphia International Airport and the region. This exciting book includes images and descriptions of airlines and aircraft that have long since vanished from operation. Names like Eastern, Allegheny Commuter, TWA, Piedmont, and even Pan Am evoke memories from years past. PHL itself has grown to become today's hive of activity for domestic and international operations on a major scale. The reality of today's world has dampened the ability to access the vantage points once enjoyed by spotters at airports around the globe. The enthusiasm and solidarity of spotters, however, remains strong, and that spirit can be felt throughout the pages of this publication. Anyone who has an interest in aviation, an interest in travel, or an association with the region will certainly enjoy this step back in time.
