Chris Beasley

What is Feminism?: An Introduction to Feminist Theory Chris Beasley

So what *is* feminism anyway? Is it possible to make sense of the complex and often contradictory debates?

In this concise and accessible introduction to feminist theory, Chris Beasley provides clear explanations of the many types of feminism. She outlines the development of liberal, radical and Marxist/socialist feminism, and reviews the more contemporary influences of psychoanalysis, postmodernism, theories of the body, queer theory and the ongoing significance of race and ethnicity.

What is Feminism? is a clear and up-to-date guide to Western feminist theory for students, their teachers, researchers and anyone else who wants to understand and engage in current feminist debates.
