**American Swordmakers** Richard H. Bezdek

**American Swordmakers** is the definitive reference volume to American swords from Colonial times to the present. In addition to the men, companies, and government facilities that made swords, this reference also contains a huge amount of data on the makers of dirks, naval and infantry pikes, cavalry lances, halberds, tomahawks, and bayonets.

This book, which contains information formerly found in **American Swords and Swordmakers**, also features:

- all government sword contracts, from the first with Nathan Starr in 1798 to the last in 1916 with Landers, Frary, & Clark
- detailed information on all U.S. and Confederate arsenals and armories that were involved with swords in any way
- a complete list of U.S. military arms inspectors and the initials they used on inspected blades
- a chapter on early silversmiths who hilted swords
- two chapters on all the dealers and retailers that sold swords

This wealth of information makes **American Swordmakers** an indispensable reference for both the beginner and experienced collector of edged weaponry.
