The controversial Emanuel Revici, M.D., made the bones grow back in cancer patients, and restored health to AIDS patients as well as drug addicts and alcoholics. His medicines lifted debilitating migraines in as little as 3 minutes. Revici's reward? He was attacked and ostracized by the best. JAMA published false reports about his work. The American Cancer Society blasted him time and again. Meanwhile, word of mouth brought new patients to see him for decades. The smears didn't work, so something more needed to be done. This is the true story of the greatest medical scientist who has ever lived. Find out what happened to Dr. Revici and find out how you can use the principles of his discoveries to reverse even advanced cancers and many other illnesses.
