“When he touched me, I realized what it meant to be a woman. He was everything that I could have ever wanted and more.”

Megan had been going through a rough patch in her life. She wondered why her life had turned out this way. While being late for work again, she twist her ankle running in the rain only to be greeted by her **doctor in shining armor** . The doctor takes **complete control** and once he ensures she is ok, demands a date with her. Sparks flew and who was she to refuse, their time together would be **sensual, magical and perfect**.

The doctor drops a bombshell on Megan, when he tells her he is going away for a year, she instantly becomes sad. She was not sad for long, because what he offers her next may make all of her dreams come true.

“When he touched me, I realized what it meant to be a woman. He was everything that I could have ever wanted and more.”
