A Million Little Pieces of Feces Python Bonkers

Late night shots ring out in tranquil Hermosa Beach, California, heralding the mysterious assassination of a nondescript pussycat. Will the trail lead to an enigmatic code hidden in the works of Leonardo Da Vinci? Will a breathless race through the streets of Los Angeles lead back to Hermosa, where an explosive truth, contemplated for centuries, is finally unveiled as the Formula for God - reconciling religion's compatibility with physics? Well, no to the first question, and as for the second question, well, I guess it's all a question of faith. Nevertheless, conquer your own fear and loathing of fake memoirs and take a wild ride with the most original voice to come along in years. Truth is stranger than fiction; so much so, that sometimes it has to be toned down and just called fiction.
